

Hello, I'm Rebecca Pursglove.

I am a patient, empathetic and dedicated Support Worker and Mentor, I have experience working with young children and adults in the Health and social care sector. I have had experience working with mental health along with physical disabilities and needs.

I Started working with Dan Gaze support services as I want to help young people to grow and develop. I feel by being calm, patient and a great listener along with boundary setting, I can help build strong relationships with young people to help them build confidence and trust, To be able to help advise and guide them to face the challenges they are coming up across in daily life.

My past experiences have given me a great knowledge of Autism, ADHD, Bi-Polar disorder, dyslexia and dyspraxia. I do also hold a NVQ Level 3 in understanding Autism.

I support young people in groups and one-to-one, packages are tailored to the needs of each individual. Packages include educational support. I aim to develop social skills and life skills enabling them to fulfil their greatest potential.
